PROFILE

- Public health researcher with 4+ years of experience in mental health and maternal and child health research
- Aspiring psychiatric epidemiologist committed to improving population mental health through rigorous epidemiologic methods and evidence-based interventions, with a focus on children, adolescents, and their parents
- Demonstrated research independence by securing a competitive undergraduate research grant in Taiwan, leading manuscript development, and collaborating with research teams across institutions
- Skilled in statistical analysis (SAS, R, Stata) and qualitative methods (Atlas.ti, Dedoose)
- Experienced in literature reviews, survey development and implementation, and public health program evaluation

EDUCATION

University of North Carolina at Chapel Hill, Gillings School of Global Public Health 2026, Chapel Hill, NC
Master of Public Health in Health Behavior
Taipei Medical University 2024, Taipei, Taiwan
Bachelor of Science in Public Health | Overall GPA: 3.97/4.00 | Certificate of Global Health

RESEARCH EXPERIENCE

Graduate Research Assistant 05/2025 – Present, Chapel Hill, NC
Department of Epidemiology, Gillings School of Global Public Health, University of North Carolina at Chapel Hill
Project: *Bachpan Study* | PI: Joanna “Asia” Maseko, ScD

- Lead a manuscript on childhood trauma types and children’s socioemotional outcomes, including study conceptualization, statistical analysis, and writing (manuscript now under review)
- Conduct advanced quantitative analyses (GEE, IPW) to examine associations among maternal mental health, parental engagement, and child learning outcomes in an 8+ year longitudinal cohort; contribute to manuscript development
- Design dissemination materials to communicate research findings with 1,000+ participants (mothers + kids)
- Maintain comprehensive weekly meeting documentation for an international, interdisciplinary research team

Graduate Research Collaborator (Volunteer) 12/2024 – Present, Research Triangle Park, NC
RTI International

- Conduct a scoping review on community-level interventions addressing structural racism and discrimination to improve adolescent health; contribute to literature screening, data extraction, and manuscript results section writing
- Conducted a scoping review on eating disorders among postpartum women, focusing on maternal mental health, feeding practices, infant health outcomes, and screening strategies for eating disorders; contributed to literature screening (600+ articles), research quality assessment, and data extraction (39 studies included) using Covidence; co-authored a manuscript now under review

Program Evaluation Intern (for MPH Practicum) 05/2025 – 07/2025, Chapel Hill, NC
Department of Family Medicine, School of Medicine, University of North Carolina at Chapel Hill
Project: *Primary Care Training Enhancement – Residency Training in Mental and Behavioral Health* |
Preceptors: Kelsey Ross Dew, MPH & Brianna Lombardi, PhD, MSW

- Performed transcript quality assurance procedures and thematic analysis using Atlas.ti on 24 qualitative interviews with family medicine residents to identify physicians’ self-perceived roles in addressing mental and behavioral health
- Conducted a literature review on the integration of mental and behavioral health care into primary care; developed search strategies, executed database searches, and synthesized findings to inform residency training improvements

Undergraduate Research Fellow 07/2022 – 02/2023, Taipei, Taiwan
School of Public Health, Taipei Medical University
Project: *Relationship Between Instagram Use and Subjective Well-Being among College Students—the Role of Resilience* |
Advisor: Yi-Hua Chen, PhD

- Awarded a competitive University Students Research Grant from the National Science and Technology Council (NSTC), Taiwan’s primary science funding agency (Grant value: NT\$58,000), to investigate the relationship between multifaceted social media usage and positive and negative mental health outcomes
- Directed all phases of the research project: proposal development, survey design, primary data collection, statistical analysis using SAS 9.4, interpreted findings, and authored the final grant report

- Presented research results via posters at major domestic and international conferences with over 2,000 attendees; one conference abstract was published in a supplement of the *European Journal of Public Health* (with three citations)

Undergraduate Research Assistant

09/2021 – 06/2024, Taipei, Taiwan

School of Public Health, Taipei Medical University

Project: *Longitudinal Examination across Prenatal and Postpartum Health in Taiwan (LEAPP-HIT)* | PI: Yi-Hua Chen, PhD

- Researched on risk and protective factors of parental mental health during the perinatal period
- Constructed a merged dataset by integrating LEAPP-HIT cohort data (11 timepoints) with multi-source environmental indicators (temperature and NDVI) to quantify climate impacts on perinatal mental health and infant birth outcomes—the first cohort study of its kind in Taiwan, advancing scientific evidence and informing policy making
- Translated and culturally adapted the Flourishing Index into Chinese; developed a web-based ecological momentary assessment (EMA) tool to investigate the real-time association between heat exposure and mood fluctuations
- Served as an interviewer, facilitated data collection, executed data entry and transformation, and coordinated follow-ups for a longitudinal cohort of 2,000+ households (mothers, fathers, and children included)

Project: *An International Comparative Study of the Effectiveness of COVID-19 Control Measures in Taiwan and their Impact on Population Health* | PI: Yi-Hua Chen, PhD

- Conducted a systematic review on non-pharmaceutical interventions (NPIs) adopted during the COVID-19 pandemic, including screening over 6,000 articles and synthesizing findings from 18 studies
- Contributed to the conceptualization of cross-country policy effectiveness and authored sections of a governmental research report submitted to Taiwan's Ministry of Health and Welfare

Public Health Intern

07/2023 – 08/2023, Kinmen, Fuchien

Jincheng Health Center

Project: *Exploring the Health Status of the Elderly in Jincheng Township, Kinmen County: The Impact of Education Levels and Community-Based Health Promotion Programs* | Advisor: Ying-Chih Chuang, PhD

- Contributed to the execution of community health promotion programs, inspiring approximately 20 elderly individuals to engage in exercise and handicraft activities
- Evaluated the program and provided tangible recommendations for program improvements
- Designed web-based health education materials to convey the principles of an age-friendly city and promoted the online elderly health assessment provided by the Health Promotion Administration, Taiwan
- Explored social determinants of health among older adults in Kinmen, an outlying island with limited healthcare resources
- Recognized with the university-wide Outstanding Internship Award

Undergraduate Student Researcher

09/2022 – 01/2023, Taipei, Taiwan

School of Public Health, Taipei Medical University

Project: *Community Assessment of Xinzhong Village, Wanhua District, Taipei City* | Advisor: Ying-Chih Chuang, PhD

- Conducted a community assessment utilizing a multi-method approach, including archival data research, direct observation, and five in-depth qualitative interviews
- Applied an equity lens to understand and voice the lived experiences of marginalized urban populations, examining systemic and historical factors affecting community health; identified the nuanced relationship between self-labeling as a coping mechanism and community members' resistance to external stigmatization

Summer Research Student

07/2022 – 08/2022, Taipei, Taiwan

Neuroscience Program of Academia Sinica (NPAS), Institute of Biomedical Science, Academia Sinica

Project: *STAT6 Appears to Be a Potential Regulator of Galectin-3 in Tauopathy* | Advisor: Yijuang Chern, PhD

- Conducted an independent research project investigating the regulatory role of STAT6 in Alzheimer's disease pathology, identifying the STAT6/Galectin-3 pathway as a potential therapeutic target for tauopathy progression
- Mastered and applied key biomedical laboratory techniques, including Western blotting, to quantify protein expression and statistically analyzed results using GraphPad Prism

PUBLICATIONS AND PRESENTATIONS

Journal Articles

Lin, W.C., Frost, A., Bibi, A., Sikander, S., & Maselko, J. (Under review). Different types of childhood traumatic experiences and mental health outcomes among 8-year-old children in rural Pakistan.

Pearsall, M.S., **Lin, W.C.**, & O'Shea, N.G. (Under review). Eating disorder symptoms and treatment strategies during the postpartum period: A scoping review.

Manoj, D., Acharya, S., **Lin, W.C.**, Shrestha, P., Pan, Y., Frost, A., & Maselko, J. (Manuscript in preparation). The link between parental engagement, maternal mental health, and child learning outcomes in rural Pakistan.

Chung, E., **Lin, W.C.**, & Maselko, J. (Manuscript in preparation). COVID-19 stressors and child literacy and numeracy skills in rural Pakistan.

Lin, W.C., & Chen, Y.H. (Manuscript in preparation). Associations between Instagram usage, subjective well-being, and depression among university students: The moderating role of resilience and self-esteem.

Taggart, T., Sawyer, S., Mitchell, C., Ekanayake-Weber, M., Faris, R., O'Shea, N.G., Robinson, L., Woodard, R., **Lin, W.C.**, Xu, N., Gao, Y., Nyhan, K., & Espelage, D. (Manuscript in preparation) Structural interventions to address racism and improve adolescent health outcomes: A scoping review.

Conference Presentations and Abstracts

Wang, Z.Y., **Lin, W.C.**, Zou, M.L., Lung, S.C., Chao, H.J., & Chen, Y.H. (Presenter). (2024, October 27–30) *Association between ambient temperature exposure and birth outcomes: The role of season of birth in Taiwan* [Conference session]. APHA 2024 Annual Meeting and Expo, Minneapolis, MN, USA.

Chen, Y.H. (Presenter), **Lin, W.C.**, & Zou, M.L. (2024, June 6–7). *Impact of ambient temperature on parental well-being during pregnancy: A cohort study in Taiwan* [Poster presentation]. International Conference on Environmental and Public Health Management, Kobe, Japan.

Lin, W.C., Zou, M.L., Hsu, H.W., Lin, W.Y., & Chen, Y.H. (2023). Association between Instagram addiction and well-being: the role of resilience and self-esteem. *The European Journal of Public Health*, 33(Suppl 2), ckad160.1581. <https://doi.org/10.1093/eurpub/ckad160.1581>

Lin, W.C. (Presenter), & Chen, Y.H. (2023, September 16–17). *Gender differences in the relationship between Instagram addiction and depression among college students* [Poster presentation]. 2023 Taiwan Public Health Joint Annual Conference, Kaohsiung, Taiwan.

Lin, W.C. (Presenter), Hsu, H.W., Lin, W.Y., Zou, M.L., & Chen, Y.H. (2022, October 15–16). *Relationship between parental relationship and depression during pregnancy: The modifying effect of resilience* [Poster presentation]. 61st Annual Conference of the Taiwanese Psychological Association, Taipei, Taiwan.

SERVICE LEADERSHIP AND ACTIVITIES

Event Coordinator 05/2025 – Present, Chapel Hill, NC

Taiwanese Student Association (TSA), University of North Carolina at Chapel Hill

- Plan and execute 5+ major events for the academic year, including pre-arrival information sessions, orientation events, and community gatherings for 50+ Taiwanese students and scholars
- Secured funding of \$400 from Taiwan's Ministry of Foreign Affairs to support the orientation for fall 2025

Conference Abstracts Reviewer 04/2025, Washington, DC

Mental Health Program, APHA 2025 Annual Meeting and Expo, American Public Health Association

- Reviewed and assessed eight conference abstracts for the APHA Annual Meeting Mental Health section, providing scores, detailed comments, and recommendations for final program selection

President 06/2021 – 09/2022, Taipei, Taiwan

Chinese Medicine Club, Taipei Medical University

- Managed a student club with 70+ members; oversaw weekly lectures, hands-on activities, and executive meetings
- Guided the development of club advertisement materials, including flyers and social media marketing
- Initiated a program sharing health knowledge with the public through social media platforms
- Partnered with local clinics and nonprofit organizations to expand community engagement and outreach
- Led the executive team to win first place in the university-wide club evaluation competition

Director of Health Education 06/2021 – 09/2022, Taipei, Taiwan

Chinese Medicine Social Medical Service Team, Taipei Medical University

- Led the community outreach initiatives by coordinating home visits and adapting survey instruments to assess health status, health literacy, and health behaviors in rural geriatric populations
- Designed and delivered home visits interviewer training for 20+ team members, focusing on practical, effective health communication and data collection skills
- Developed a culturally tailored, narrative-based health education intervention (a 20-minute drama in local dialect) for 50+ community older adults in rural Taiwan

Event Director 03/2021 – 05/2021, Taipei, Taiwan

Chinese Medicine Week, Taipei Medical University

- Managed a team of 20 people to host a lecture on obesity control in traditional Chinese medicine
- Organized and supervised health education activities to advocate the importance of a healthy diet on campus

SKILLS

Technical Skills

- Statistical Software: SAS, R (RStudio), Stata, GraphPad Prism, ArcGIS Pro
- Qualitative Software: Atlas.ti, Dedoose
- Other Tools: Tableau, GitHub, Covidence

Research Methodologies

- Data Analysis: Generalized Linear Models (GLM), Linear Mixed-Effects Models (LMM), Generalized Linear Mixed Models (GLMM), Generalized Estimating Equations (GEE), Spatial Regression, Multiple Imputation by Chained Equations (MICE), Inverse Probability Weighting (IPW)
- Study Design & Synthesis: Survey Development & Implementation, Systematic Review, Meta-Analysis
- Qualitative Analysis: Interview Guide Development, In-Depth Interviewing, Thematic Analysis

Laboratory Skills

- Cell & Molecular Biology: Cell Culture, Plasmid Sequencing, Western Blotting, Immunocytochemistry

Emerging Skills

- Structural Equation Modeling (SEM), Latent Growth Curve Modeling, SQL, LaTeX

Languages

- Mandarin Chinese: Native
- English: Fluent – TOEFL iBT 108/120 (R28, L29, S23, W28)

Psychological First Aid (PFA) Online	<i>07/2025, National Child Traumatic Stress Network</i>
GCP – Social and Behavioral Research Best Practices for Clinical Research	<i>05/2025, CITI Program</i>
Adult Mental Health First Aid USA	<i>02/2025, National Council for Mental Wellbeing</i>
APHA Climate for Health Ambassador Training	<i>01/2025, ecoAmerica</i>
Public Health Specialist	<i>09/2024, Ministry of Health and Welfare, Taiwan</i>
Social and Behavioral Research	<i>08/2024, CITI Program</i>
SAS – Taipei Medical University Academic Specialization in Applied Data Analysis	<i>07/2024, SAS Institute</i>

HONORS AND AWARDS

Academic Excellence Award for Graduates	<i>06/2024, Taipei Medical University</i>
Graduation honors recognizing academic excellence among the graduates of the Class of 2024	
Outstanding Internship Award	<i>06/2024, Taipei Medical University</i>
Recognized for demonstrating exceptional professionalism and contributions during the public health practicum	
PsBL Achievement Competition – Honorable Mention	<i>11/2023, Taipei Medical University</i>
Awarded for a course project demonstrating creativity, interdisciplinary knowledge integration, and strong problem-solving abilities (PsBL: Problem-, Project-, Product-Based Learning)	
Club Evaluation Presentation Competition – High Distinction Award	<i>06/2022, Taipei Medical University</i>
First place award recognizing excellence in student club leadership, strategic planning, and oral presentation skills	
Academic Achievement Award	<i>03/2022, Taipei Medical University</i>
Awarded to the top 1% of students in the School of Public Health for outstanding academic performance
